Mohammed Azharuddin Zartargar

PMP®-Certified IT Project Manager | 13+ Years in IT & SAP (SAP Full Stack) | Digital Transformation | Energy & Utilities (DEWA) Specialist

Dubai, United Arab Emirates

Summary

With 13+ years of SAP expertise and a growing foundation in project management, I bring a unique perspective that bridges technical depth with strategic leadership.

My Background:

As a PMP-certified IT Project Manager, my journey from hands-on SAP technical roles to team leadership has been deliberate. Three years of leading teams in enterprise-scale projects has taught me that the best Project Managers understand both the code and the business—I'm building that bridge every day.

Currently focused on the utilities sector, I leverage my technical SAP background to deliver implementations that balance stakeholder expectations with real-world feasibility.

What I Offer:

Technical Foundation → Deep SAP expertise across ABAP, Fiori, S/4HANA, and core modules (MM, SD, PM)

Project Leadership → Growing capabilities in stakeholder management, team coordination, and delivery excellence

Collaborative Approach → Building trust across technical teams and business stakeholders through clear communication

Core Skills:

SAP Expertise: ABAP | SAP Fiori | S/4HANA | SAP RAP | MM | SD | PM | Business Intelligence

Project Management: Agile & Waterfall | Stakeholder Engagement | Resource Management | Change Leadership

Industry Focus: Utilities Sector | Enterprise Systems | Process Optimization

I believe successful IT projects start with understanding the technology deeply and leading with empathy. Open to connecting with fellow SAP professionals and project leaders navigating digital transformation.
